

MUHAMMAD ABDULLAH

Full Stack Developer

Islamabad, Pakistan | +92 346-0779176 | abdullahverse9176@gmail.com | [Github](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Full Stack Developer with 2+ years of professional experience building modern, responsive, and user-friendly websites, including e-commerce platforms. Delivered 50+ websites for clients across different projects, with expertise in improving existing platforms and working on inventory management systems. Contributed to solutions for well-known dealers in the Marine & Yachting industry, including Strong's Marine.

HIGHLIGHTS

- **50+ Marine Web Apps:** Built, customized, and improved over 150 websites for yacht and boat dealerships.
- **E-commerce Websites:** Built and customized e-commerce storefronts, including Shopify frontend development, for various client projects.
- **Performance Optimization:** Optimized website speed, compressed media files, and developed custom inventory search features.
- **Team Collaboration:** Worked closely with designers and developers to turn ideas into clean, responsive, and user-friendly websites.
- **Mentorship & Leadership:** Guided junior developers, reviewed their work, and helped them complete tasks while maintaining code quality and project standards.

PROJECTS

- **Strong's Marine** — Built the frontend and backend, developing multiple modules including inventory management, dealer listings, and search & filter functionality.
- **Wake Works** — Built a Shopify e-commerce store with custom frontend and backend modules for product catalog, cart, and checkout.
- **Singleton Marine** — Built the frontend and backend, developing multiple modules including inventory management, boat listings, and an admin dashboard.
- **Walkers Marine** — Built the frontend and backend, developing multiple modules including location-based inventory display, search, and dealer listings.
- **Phil Dill Boats** — Built the frontend and backend, developing multiple modules including location-based inventory display, search, and dealer listings.
- **Center Pointe Marine** — Built the frontend and backend, developing multiple modules including inventory management and dealership listings.
- **Petzold's** — Built the frontend and backend, developing multiple modules including inventory management, dealership listings, and brand management.
- **Tobler Marina** — Built the frontend and backend, developing multiple modules including inventory management, dealership listings, and team management.
- **Chelan Bay Marina** — Built the frontend and backend, developing multiple modules including inventory management and dealership listings.
- **Bay Marine Boats** — Built the complete frontend and backend, developing multiple modules including teams, tournament results, and careers.
- **Pocket Yacht Company** — Built the complete frontend and backend, developing multiple modules including teams and careers.
- **Service Markaz** — Built the complete frontend and backend, developing a local business listing platform with provider profiles, location-based search, verification, and lead generation.

PROFESSIONAL EXPERIENCE

Web Developer — Vizz Web Solutions 2024 – June 2026

Worked on modern, high-performance websites, mainly for clients in the marine industry.

- Built, customized, and maintained 150+ responsive websites using React.js and Next.js.
- Developed and customized e-commerce websites, including Shopify frontend development.
- Developed clean, responsive, and user-friendly interfaces with Tailwind CSS and Bootstrap.
- Used Redux and Zustand for state management in web applications.
- Integrated REST APIs, fixed complex issues, and improved website performance and SEO.
- Worked closely with designers and other developers to deliver high-quality projects.
- Managed and resolved client support tickets via Freshdesk, logging and tracking issues from creation through resolution.
- Mentored junior developers by reviewing their work, helping them solve technical problems, and guiding them through project tasks.
